Dear Mr. Lanier: STAT It is a pleasure to recommend as an Instructor in the University of Virginia Off-Campus Program. STAT for the past two I have been associated with years serving as her immediate supervisor. Her previous Agency experience has equipped her to perform the functions of a Budget and Program Analyst in an excellent fashion, and I have found her to be extremely competent in the areas of her responsibilities, dependable in following through on assignments and honest and forthright in her dealings with me and with others whom she supports. STAT is highly qualified to serve as an instructor in her field. I have observed her in many situations where she has presented briefings to officials and I have no question that she would be an excellent instructor. **STAT**
